What Is Vicodin?

Vicodin is a **prescription painkiller** that combines **Hydrocodone** (an opioid) and **Acetaminophen** (a non-opioid analgesic). Together, these ingredients provide powerful and lasting relief from moderate to severe pain.

Vicodin helps with:

- Post-surgical pain relief
- Injury or trauma recovery
- Chronic pain management
- Dental or nerve pain control

It works by changing how the brain perceives pain, while Acetaminophen reduces inflammation and fever. The result is a well-balanced and effective pain solution trusted by millions worldwide.
